

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

1. (original): A fluid-dispenser member (1) comprising:

- a body (10) defining an inlet duct (11);
- an actuator rod (13) that is displaceable in the body;
- an actuator member (15) coupled to the actuator rod;
- fastener means (17) for fastening the body (10) in an opening (20) of a receptacle (2)

containing a fluid;

and

- an ID unit (3) capable of supplying information relating to the dispenser member, the dispenser member being characterized in that said ID unit (3) is housed in a gap defined between the body (10) and the fastener means (17), said gap (19) forming an annular housing defined by the body (10), by a portion (170) of the fastener means (17), and by the neck gasket (18).

2. (original): A dispenser member according to claim 1, in which said gap (19) is defined by a neck gasket (18) disposed around the body, and designed to be compressed against the opening (20).

2. (original): A dispenser member according to claim 1, in which said gap (19) is defined by a neck gasket (18) disposed around the body, and designed to be compressed against the opening (20).

3. (currently amended): A fluid-dispenser member according to claim 1 ~~or claim 2~~, in which said portion (170) is engaged below a rim (12) formed by the body.

4. (original): A dispenser member according to claim 1, in which the ID unit (3) comprises an integrated circuit (301), and an antenna (302) capable of transmitting signals carrying information.

5. (currently amended): A dispenser member according to claim 1 ~~any preceding claim~~, in which the ID unit (3) is fastened to the body (10).

6. (original): A dispenser member according to claim 4, in which the ID unit (3) includes a substrate (303) in or on which the integrated circuit (301) and the antenna (302) are disposed.

7. (currently amended): A dispenser member according to claim 1 ~~any preceding claim~~, in which the fastener means comprise a ring for crimping, screw-fastening, snap-fastening, or force-fitting.

Preliminary Amendment  
Appln. No.: National Stage of PCT/FR2004/050719

8. (currently amended): A fluid dispenser comprising a receptacle (2) and a dispenser member  
(1) according to claim 1 ~~any preceding claim~~.
